

evertree
ETRE

Our token is a seed.

Evertree is a seed that is grown in Aurallia Metaverse. The seed is planted, traded, eaten and nourishes the citizens of Aurallia. The roots of the seed grow deep into the metaverse and join different metaverses together in perfect harmony. One evertree is not just one seed. One evertree is a planet. There is so much potential in a seed it is unfathomable. This is the birth of evertree. The tree the world was built upon. The very first tree of the world. The Genesis tree. The Mother tree. In Aurallia the evertree lives on forever and gives life to the world around us, there is a stream flowing from the Mother tree that joins the metaverse to the real world.. Thus the magical effects of the evertree are felt in Earth.

Tokenomics

NAME: EVERTREE (ETRE)
SUBUNIT: EI

MAX SUPPLY/ CAP
240,000,000

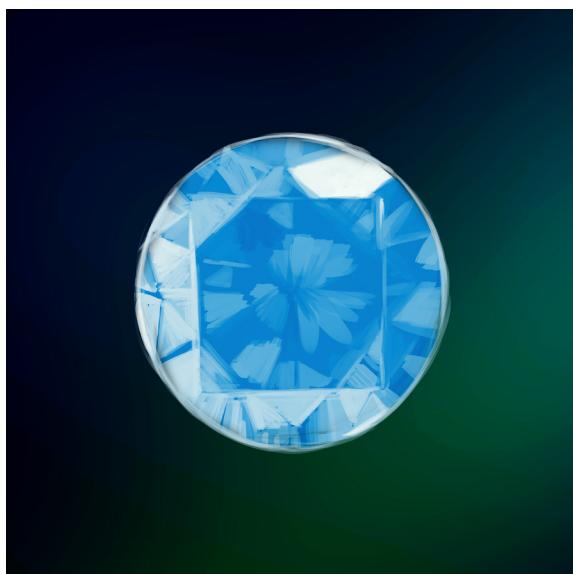

CIRCULATING SUPPLY (2021)
24,000,000

BLOCKCHAIN
Ethereum

Evertree (ETRE) is developing
our own Blockchain

100,000,000 EI = 1 ETRE (to be)
SUBUNIT is EI

			
REI (beautiful, lovely)	LEI (garland of flowers)	TEI (upright, righteousness)	EI (yes, emotional impact)
10^{*2}	10^{*4}	10^{*6}	10^{*8}

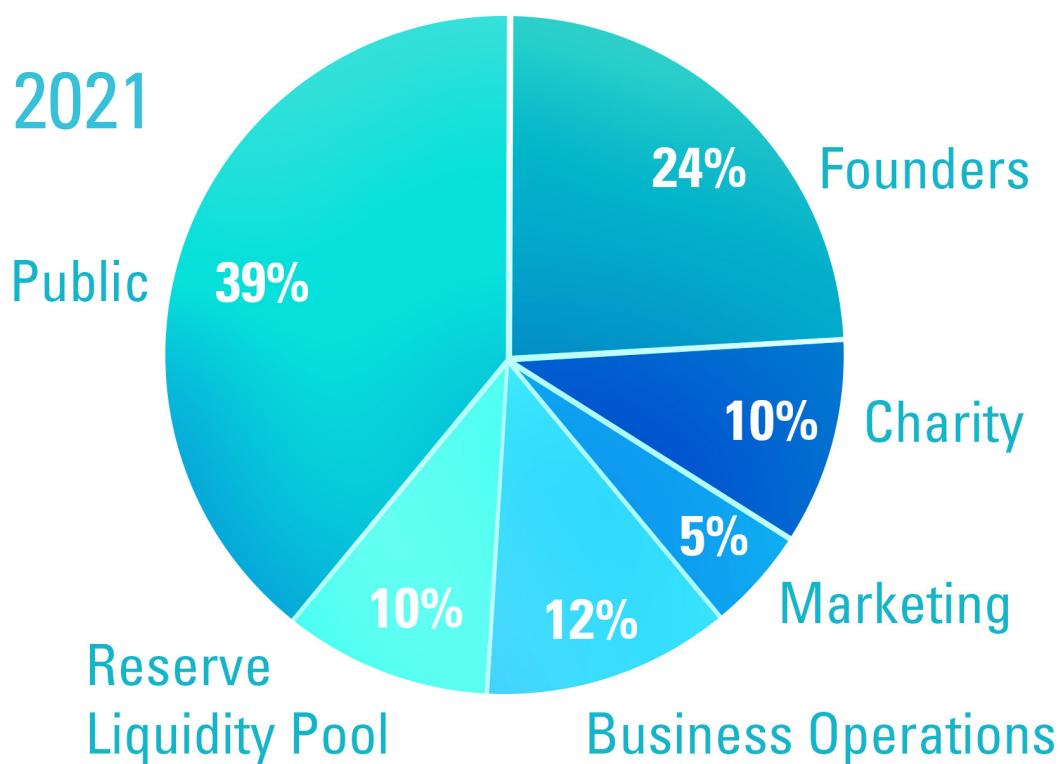

Utility

- EVERTREE (ETRE) plants 1 million trees
- EVERTREE 10K NFT pfp adds liquidity

- Key Aurallia Game Assets adds liquidity
- Trade and Exchange EVERTREE in Aurallia Marketplaces
- Ingame purchases use EVERTREE
- Play to earn EVERTREE

Seed Distribution

Based on annual circulating supply

Vision

We can change the world one seed at a time.

Mission

We will plant 1 million trees around the world to help combat climate change (reducing carbon emissions) and reforest fire devastated areas.

Objectives

- Create ingame utility for Aurallia's trading and commerce system
- Create opportunities ingame for earning crypto
- Plant 1 million trees around the world
- Support NGOs that help to combat climate change
- Pay people to plant trees creating income for people affected by Covid19
